Hello,

Thanks for your enquiry about our Active Learning & Sensory Path Stickers.

In this envelope you will find an A4 sample of our stickers.

How do I stick them down?

It's pretty easy, it's just peel & stick.

1. Make sure the area is cleaned first
2. Peel the sticker from the backing paper.
3. Working from the bottom of the sticker, apply the sticker to the cleaned area.
4. Apply pressure using a credit card working up the sticker until it is fully stuck to the floor.

Sometimes a video is easier though!
