Troubleshooting

- Thread Keeps Snapping or Shredding
- Material is all bumped up after sewing
- End of the material keep getting stuck in material guide
- I can't sew in a straight line

Thread Keeps Snapping or Shredding

This is usually because the needle is blunt - Change the needle

Material is all bumped up after sewing

End of the material keep getting stuck in material guide

I can't sew in a straight line

Use some scraps of material and practice, you'll soon get the hang of it.
